

3rd transnational meeting of the european project

Broadcasting Europe

In south of Italy with all european partners

After the first and the second meetings about the European project "**Broadcasting Europe, incubation of social enterprise projects in the media sector**" that took place from May 2018 to February 2019 in Putignano, and after the 4 training courses that took place in Spain, Poland, Greece and Italy, all representatives of APS **Warrols**, project leader, of **RadioJP** Association, and of all partners involved (**Liceo Majorana Laterza**, **Asociación Building Bridges** - Spain, **Europe4Youth** - Poland, **Geniko Lykeio Agios Nikolaos** - Greece, **You in Europe** – Greece) were again in Putignano on October 26 and 27.

During the activities each partner presented its own radio (name, shows, photos, etc) plus Engagement & Promotion strategies adopted during this first year; then there was Round table about the best strategies to make the webradio sustainable.

During the meeting there was also the Projection of the video tutorials made by the partners and the Presentation of the website structure : it will be online later this year.

The meeting ended with Dissemination Activity: On Air at RADIOJP for a special episode, listenable on [bit.ly/Live fromPutignano](https://bit.ly/LivefromPutignano).

"Broadcasting Europe" project, co-funded by the Erasmus plus program, first of all aimed to aid the involved organizations in the creation of non-profit web radio, run by young people, "teaching" a model of associationism (already experimented in Putignano), able to create active involvement, to promote active citizenship and to develop transversal skills in young people. The ultimate goal of the project is the creation of a European network of youth and non-profit web radio and the use of a learning platform to support young people and non-profit organizations in the creation of new web radios.

For these reasons, from October 2018 to January 2019 some representatives of Aps Warrols and Radio Jp Association went to Spain, Poland, Greece and to Polo Liceale Majorana Laterza (Putignano – Italy) for training courses thanks to which 5 web radios were born and currently share their programs on www.spreaker.com/user/10851948: **Radio Transversal (Madrid – Spain)**; **Krakyouth (Krakow, Poland)**, **Sirens Radio (Agios Nikolaos, Greece)**, **Radio You In Europe (Néa Moudhaniá, Greece)**, **Radio Urlo (Putignano, Italy)**.
